Indications and uses:

Calcium with vitamins and minerals is useful for treatment of deficiency of calcium, vitamin D, minerals, rickets, bone fractures and works as an immunomodulator.

Dose:

- Children 2-6 years: 2 teaspoons (10 mL) 3 times daily.
- Children older than 6 years and adults: 1 tablespoon (15 mL) 3 times a day, or dose recommended by your doctor.

Shake well before use.

Contraindications:

- Hypersensitivity to any component of the formula.
- Hypercalcemia, hypercalciuria or calcium kidney stones.

General precautions:

- Consult your doctor before starting to use this vitamin supplement.
- Prolonged or inadequate dose administration may cause hypercalcemia, especially in patients with renal failure or those taking high doses of vitamin D simultaneously.
- Use with caution in patients with kidney disease or a history of kidney stones.

Warnings:

Consult your doctor before starting to use this supplement if you are pregnant or suspect that you are pregnant or while breast-feeding.

Route of administration: Oral.

Presentation: Bottle of 120 mL and 240 mL.

Storage conditions:

- Keep in a cool and dry place (below 30°C), protect from light.
- Medicine, keep out of reach of children.
