

# HYDROCORTISONE 0.25%

## Topical cream

### Pharmacological information:

HYDROCORTISONE 0.25% CREAM reliefs inflammatory and pruritic manifestations caused by several types of cortico-sensitive dermatitis, such as psoriasis, contact dermatitis, atopic dermatitis and seborrheic dermatitis.

#### Composition: Each 100 g contain:

Hydrocortisone.....0.25 g  
Excipients q.s.

**Dose:** Apply a thin layer of HYDROCORTISONE 0.25% CREAM on the skin of the affected areas, twice a day or as advised by your physician. It is recommended to avoid using occlusive bandaging or to cover the affected area, unless indicated by the physician.

**Precautions:** It is within the C risk category during pregnancy. Animal-tested studies have shown an adverse effect on the fetus, and there are no adequately controlled studies on pregnant women; however, the benefits allow to use the medicament in spite of the potential risks, consult the physician. It is not know if topical corticosteroids are excreted through breastmilk.

**Contraindications:** Hypersensitivity to any of the components in the composition. Tuberculous, mycotic or viral injuries of the skin.

**Secondary effects:** The effects are of unusual incidence, and of low to moderate intensity. Signs of cutaneous atrophy might occur, as well as irritation, hypertrichosis, hypopigmentation, allergic contact dermatitis, skin maceration, secondary infection, stretch marks and miliary. As well as with other topical corticosteroids, it should not be used as acne treatment, rosacea or perioral dermatitis.

**Pharmacological interactions:** The effect is lessened by: rifampicin, rifabutin, carbamazepine, phenobarbital, phenytoin, ephedrine, aminoglutethimide. It antagonizes the effect of: hypoglucemiant, antihypertensives, loop diuretics, carbenoxolone, coumarin anticoagulants. It prolongs the relaxing effect along with: depolarizing muscle relaxants. The effect is increased by: estrogens.

**Route of administration:** Topical.

**Presentation:** Topical cream in a 30g tube.

#### Storage conditions:

Keep in a cool and dry place (below 30°C), protect from light.  
Keep out of reach of children.
