

Modepar[®]

Tabletas Recubiertas/Coated Tablet

MODEPAR[®] is a dietary supplement that helps reverse the effects of metabolic syndrome.

ACTIVE INGREDIENTS:

Each coated tablet contains:

Berberine HCL150 mg
Fisetin	25 mg
Epigallocatechin Gallate150 mg
Nicotinamide17.5 mg
Ascorbic acid	50 mg
Adenosine triphosphate	10 mg
Excipients q.s.1 coated tablet

Use recommendations:

MODEPAR[®] contributes to reversing the effects of metabolic syndrome, improves glucose tolerance, promotes the health of dysfunctional adipose tissue, acts as a regulator of lipid metabolism (triglycerides and cholesterol), reduces liver fat levels, improving cellular energy level and consequently a better quality of life.

Side effects:

At indicated doses, no side effects have been reported.

Interactions:

Using berberine can increase the side effects of cyclosporine. In addition, Nicotinamide inhibits the effects of uricosurics (probenecid, sulfipyrazone). There are no serious or intermediate interactions with the other components.

Contraindications:

Hypersensitivity to any of the active ingredients or any of the components of the formula.

Directios:

Adults take 2 tablets a day, with meals and drink enough water. Do not exceed the recommended daily dose.

Maximum use time: 3 to 6 months.

Administration route: Oral.

**Keep in a fresh and dry place at a temperature below 30°C,
protected from light.**

Keep out of the reach of children.
